

THE WOODCHUCK

My name, by which I am known is Leo Beller, but in the craft world, I am known as "The Woodchuck". I am a semi-retired minister, I retired to preach part-time and help small churches. This would give me more time to do woodworking.

My specialty is constructing porch swings, picnic tables and weathered wood picture frames. All of these built the old fashion way --- by hand! I also make other wood articles and do special orders.
